# BARRELBLOK IS THE TOP TRAINING TOOL AMONG LAW ENFORCEMENT IN AMERICA

BarrelBlok was designed for law enforcement training. The founder and designer of BarrelBlok needed a safe way to work with officers both in the classroom and on the range.

In LEO contexts the BarrelBlok is the perfect solution:

With a very low-cost  
BarrelBlok fits any budget

No disassembly is required  
to install or remove

Renders the firearm  
100% inert and safe

With the included MagBlok, allows  
for standard manipulations such  
as loading, chambering, dry firing,  
reloads, and malfunction clearing

BarrelBlok is the perfect training aid to ensure safe and realistic firearm manipulation and dry fire for training academies and other law enforcement contexts.

More is expected from today's law enforcement agencies and officers but budgets aren't growing to meet the demand.

With Dry Fire, agencies are finding they can help officers meet qualification standards without spending money they don't have on ammunition and range time.
